

No time for a gap year?

Take a month out with our optional India Intensive Career Break.

What do you know about India? Chances are, whatever you think you know will be blown away on this four week 'mini-gap' programme, and replaced with memories and perspectives that will last a lifetime. You'll discover the real India, in all its enriching, humbling, challenging and mind-expanding forms.

- Learn business skills in a local college, with Indian students.
- Live in typical student accommodation, supported by friendly local hosts.
- Do more than observe – volunteer in social enterprise programmes, helping the needy and the poor.
- Experience different areas and their diverse ways of life, including three days in an ashram.

Combine the programme with the India Intensive Career Break, and you'll be sharing this life-changing experience with your peers. It's a great way to develop friendships and associations that will support and motivate you throughout your studies.

ICS Enrichment Programme
in association with UEL

Learning at home was never like this!

What's to love about distance learning?

Earn money while you study

Money can be a problem when you're studying. With distance learning through ICS, you don't have to attend classes. No timetable means you can fit your study around work!

Stay out late

You've got to have a social life – it's all part of being a student! We don't mind if you head out for the night and sleep in the next day. As long as you get the work done, your time is your own.

Save on travel

You've got better things to do with your time – and your cash – than travel to campus every day. Just walk into your living room, your study, your bedroom... wherever you are, that's your classroom.

What's so great about studying on-campus?

Freshers' Week!

It's the week for fun, friends and finding your feet. Everyone gets a buzz from that first contact with their new life. Get ready to party...!

Plenty of backup

At uni, you've got lecturers, tutors, mentors, classmates.... all on hand to help you out. There's always someone to talk to, someone who knows just what you're going through.

Extra curricular activities

There are other ways to learn, you know. At uni, you can tap into trips away, volunteer work... they all get you where you're going.

Get ready for the best of both worlds – the ICS Enrichment Programme.

We've combined the best bits of uni with the ease of distance learning! With more than 20,000 students from 120 countries worldwide, UEL is one of the UK's most diverse and fastest growing universities. Enrol on a Degree course with ICS, in association with UEL, and you can add to the experience with our new Enrichment Programme:

- get the uni vibe at a one week residential orientation course at UEL
- catch up with your mates at two workshop weekends during your studies
- step outside your world with an optional 'mini-gap' month-long programme in India
- stay connected by logging onto our Online Student Community for continuing contact with tutors, mentors and peers

Get the Freshers' Week experience, meet new friends, sharpen up your study skills and prepare to launch yourself into your Degree!

Book your place now.

ICS Enrichment Programme

Your Induction Week timetable

| | Work | Play |
|-------|---|--|
| Day 1 | You'll arrive at UEL where we'll meet you, and you can enrol, meet your fellow students and attend a Masterclass. We'll also show you your accommodation, which will be located close to campus. | You'll have already met heaps of new friends. Spend the evening getting to know them, and find out just how much you have in common. |
| Day 2 | Attend a Study Skills workshop, where you'll look at different ways of learning and coping with academic pressures. You'll also find out about student life and the organisations and support services that you – even as a distance learning student – can access. | More time to get out and party, at a special nightclub event arranged for you and your classmates. |
| Day 3 | You'll continue to build on your study skills, with time management, writing styles and academic reading skills all coming under the spotlight. You'll also find out how to use the virtual library – these days, you don't have to be in the library to make the most of it! Another Masterclass lecture finishes the day. | The University prides itself on its diversity. Tonight, you'll attend a multicultural event featuring elements of many of the cultures featured on campus. |
| Day 4 | Keep those study skills coming! You'll tackle more writing skills, assignment planning, and preparing presentations. | What's Freshers' Week without a treasure hunt? Get a group together and track down the prize. |
| Day 5 | Time to find out all you can about studying with ICS. You'll be able to ask all your questions, develop your own Personal Development Plan, then find out what comes next when you get back home. | Time for a lunchtime quiz before you head off, ready to put your new study skills and support networks into practice. |

But wait... there's more!

The Online Student Community – your social and support network

You may be studying on your own, but you won't be alone. You'll stay in touch with your tutors, mentors and fellow students through our Online Student Community. The latest technology makes sure support and advice – even a chat! – is available just when you need it.

Weekend residential workshops – fill up on inspiration

You'll reconnect with friends and pick up even more study skills at two residential weekends, held back at UEL. Just the buzz you need to get that motivation back.

Book your place now.
